- 2 LAND ART
- 3 BRIDGE CONNECTION
- 4 POTENTIAL PEDESTRIAN TUNNEL CONNECTOR

PAVILION, SUNSET BRIDGE, PLAZA, AND GREAT LAWN

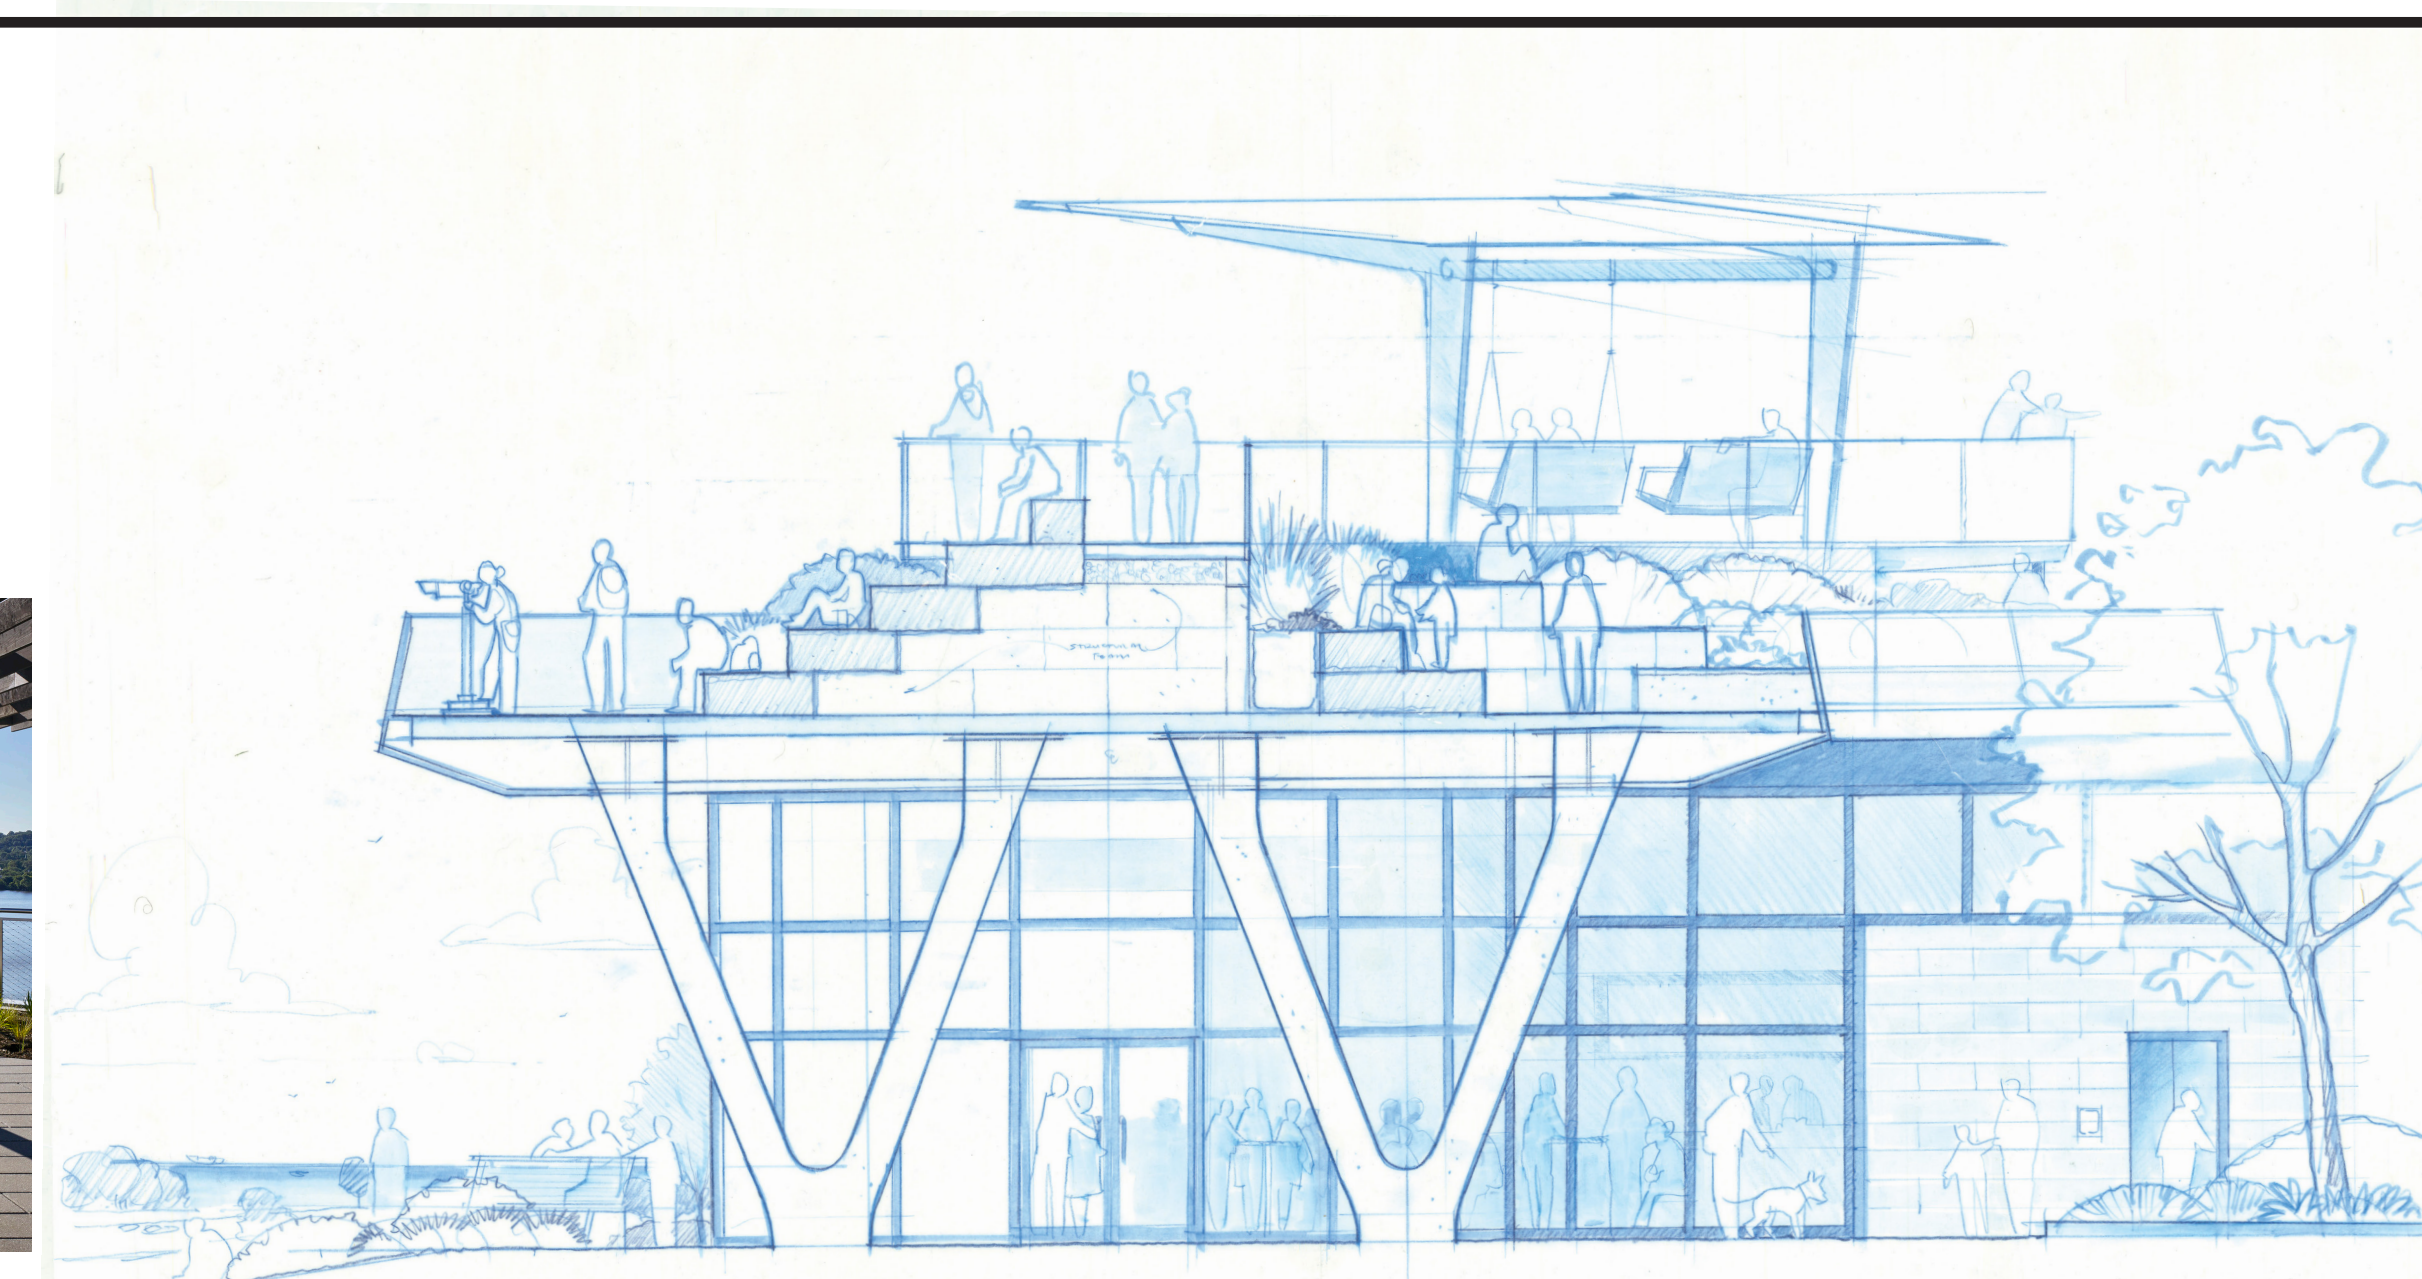

1 COMMUNITY PAVILION AND INDOOR GATHERING SPACE

A dynamic park building proposed on the site of the former aquarium is proposed to function as the primary, all-season amenity hub. Providing space for community members to host celebrations, local events, and neighborhood gatherings.

2 VIEW OF THE LAKE FROM THE SUNSET BRIDGE

Prioritizing views of the lake, the concept proposes an elevated park amenity space over and above the park pavilion. In addition to views from the park to the lake and downtown, the positioning of this park feature creates an iconic element to be viewed from the shoreway and beyond.

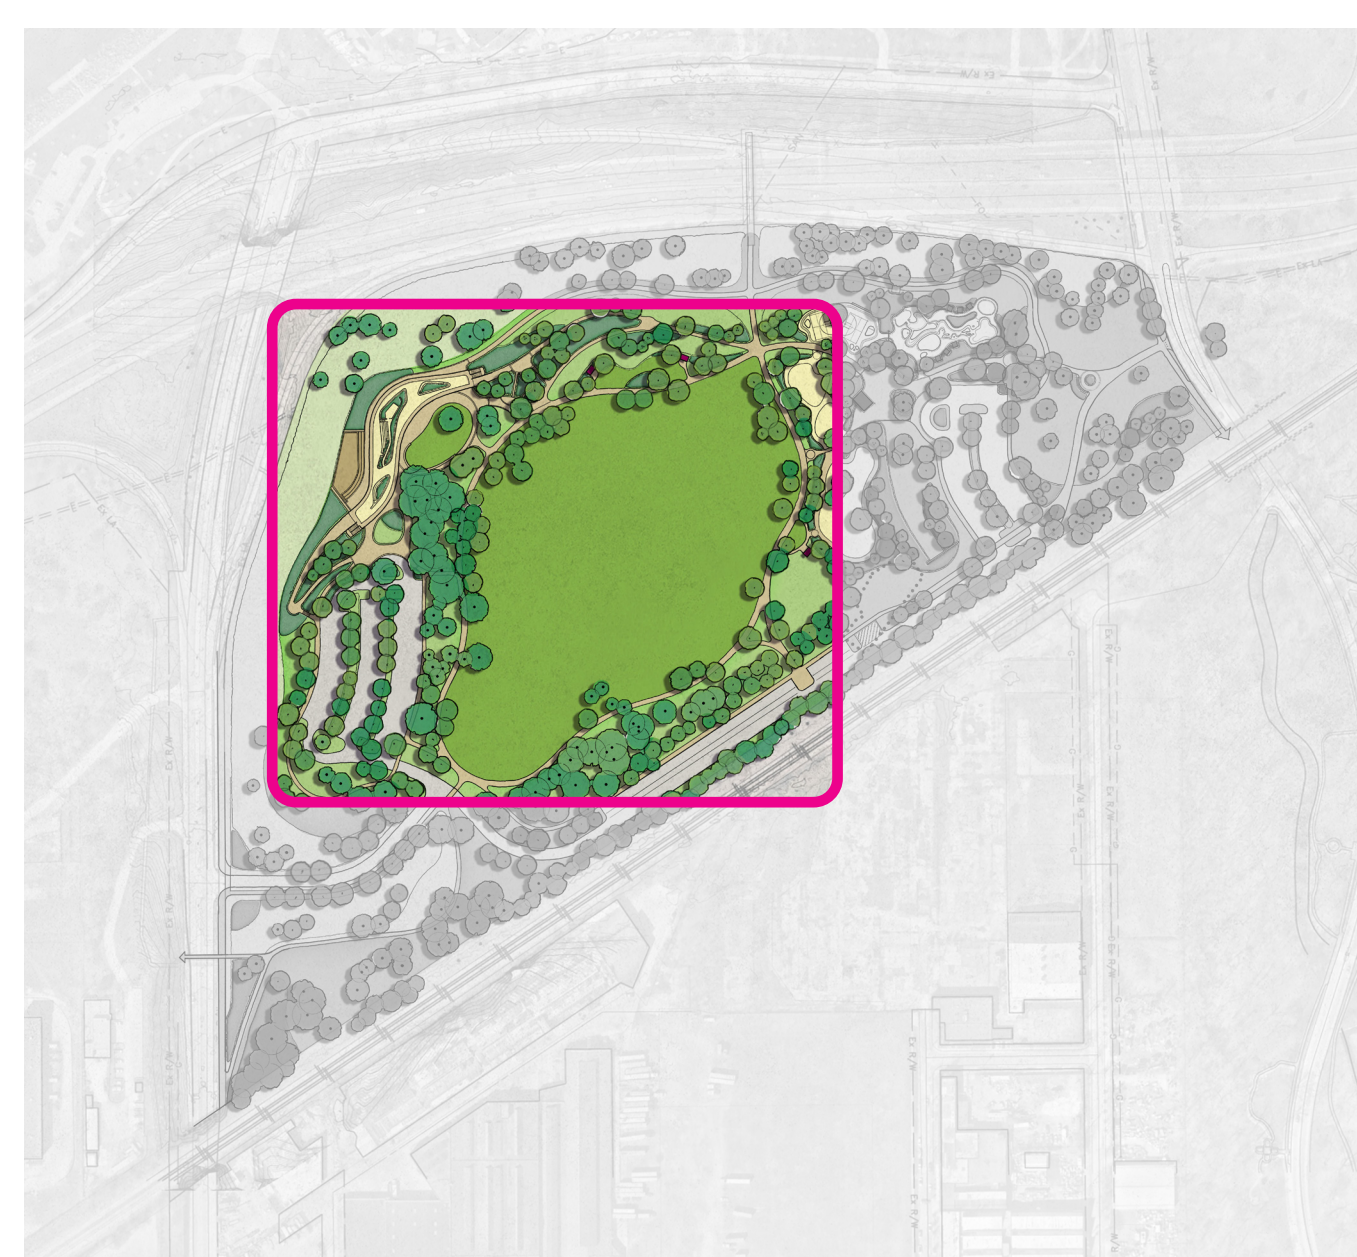

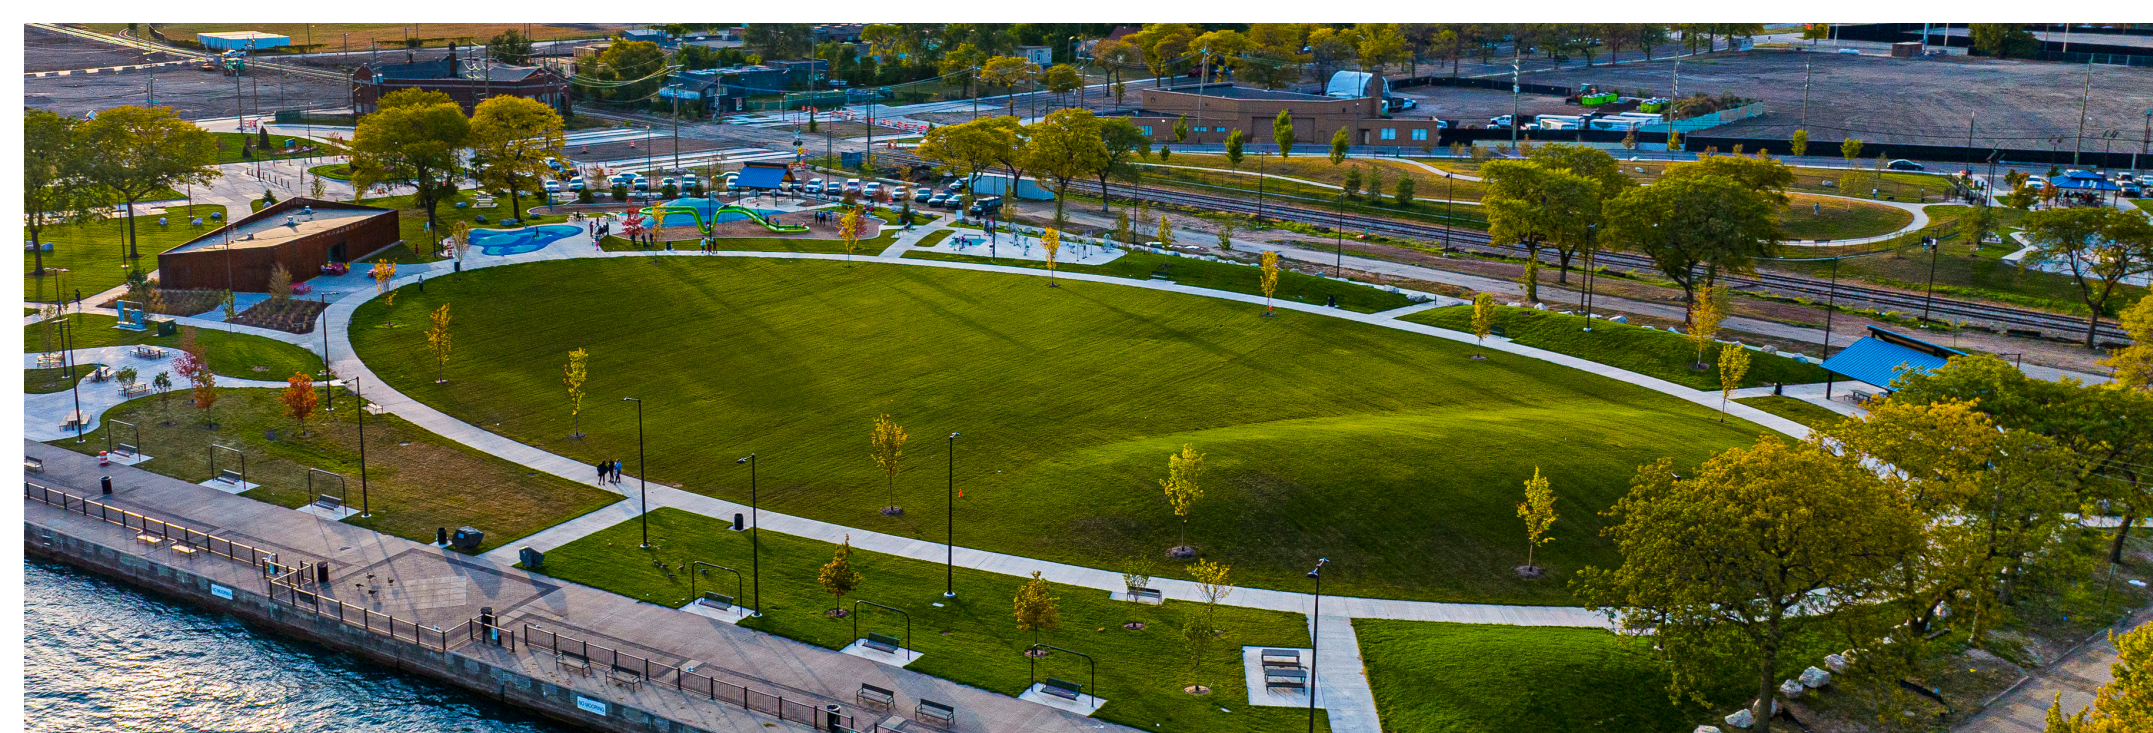

3 SOCIAL PLAZA

The main park plaza brings community together to foster social connectivity outdoors. Integrated around the community pavilion, the plaza provides the setting for a multitude of all-season activities.

4 GREAT LAWN

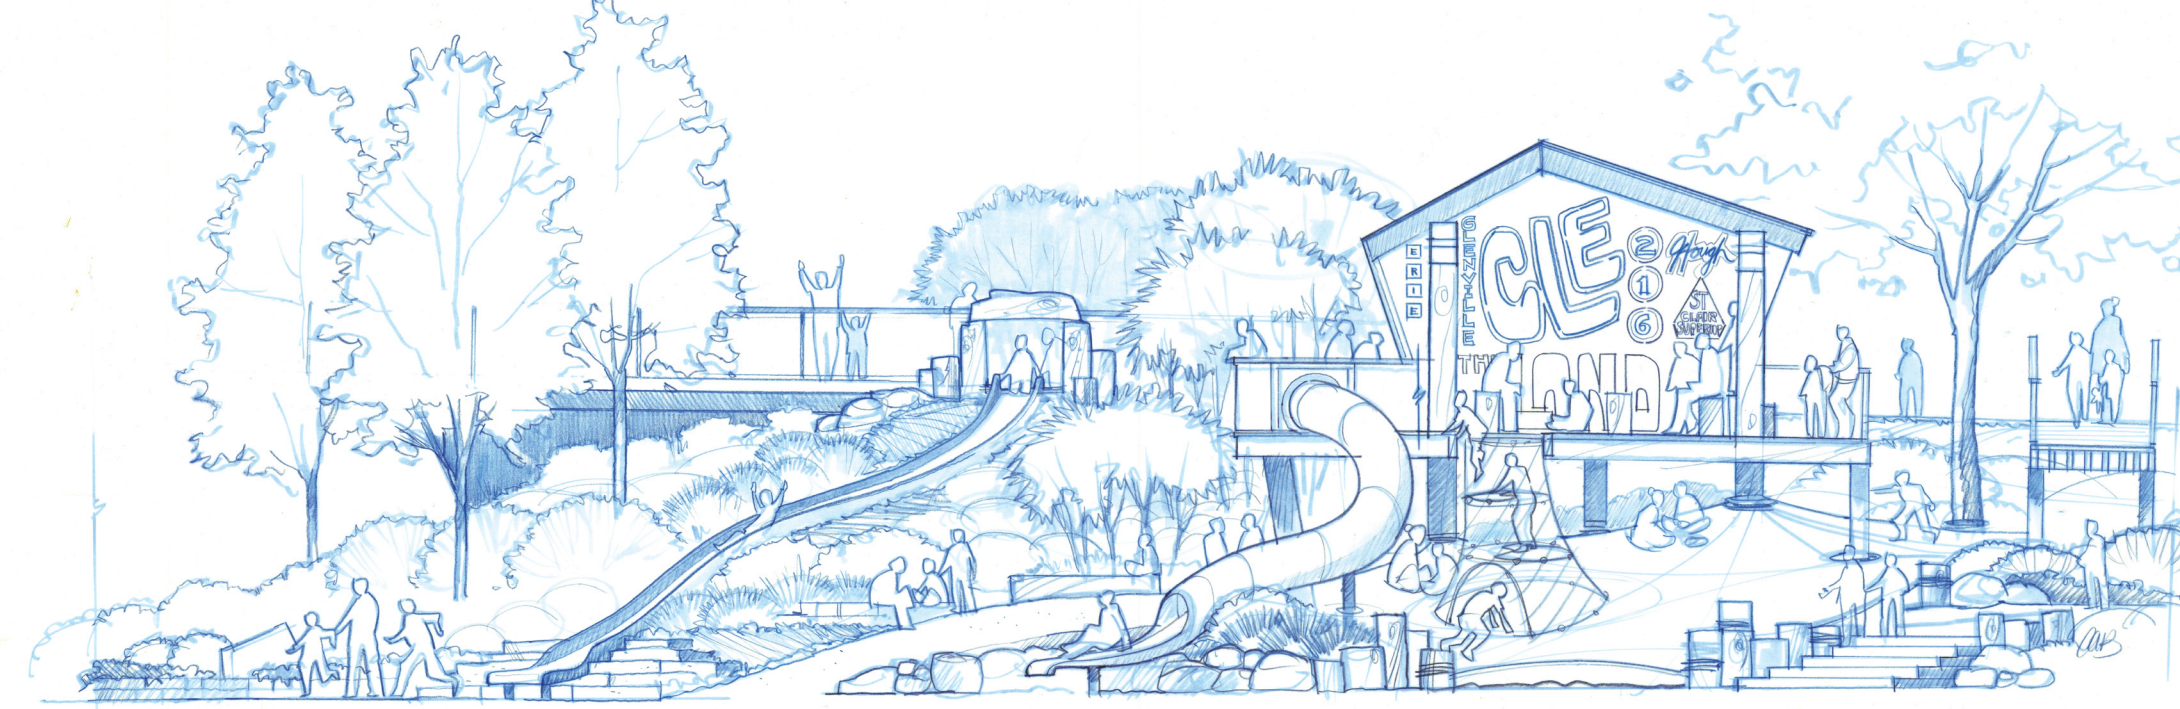

Creating a large, open space surrounded by accessible walking trails. At regular intervals around the looped path, there are also a variety of seating areas, grilling areas, and picnic shelters. This lawn is a flexible use space for recreation, gathering, events, and more.

PLAY ENVIRONMENTS AND COMFORT STATION

1 NATURE PLAY

Play environments, thoughtfully designed with all ages and abilities in mind. Natural materials would be used to create dynamic opportunities to climb, explore, swing, play, and more – all while learning about nature and connecting with the outdoors.

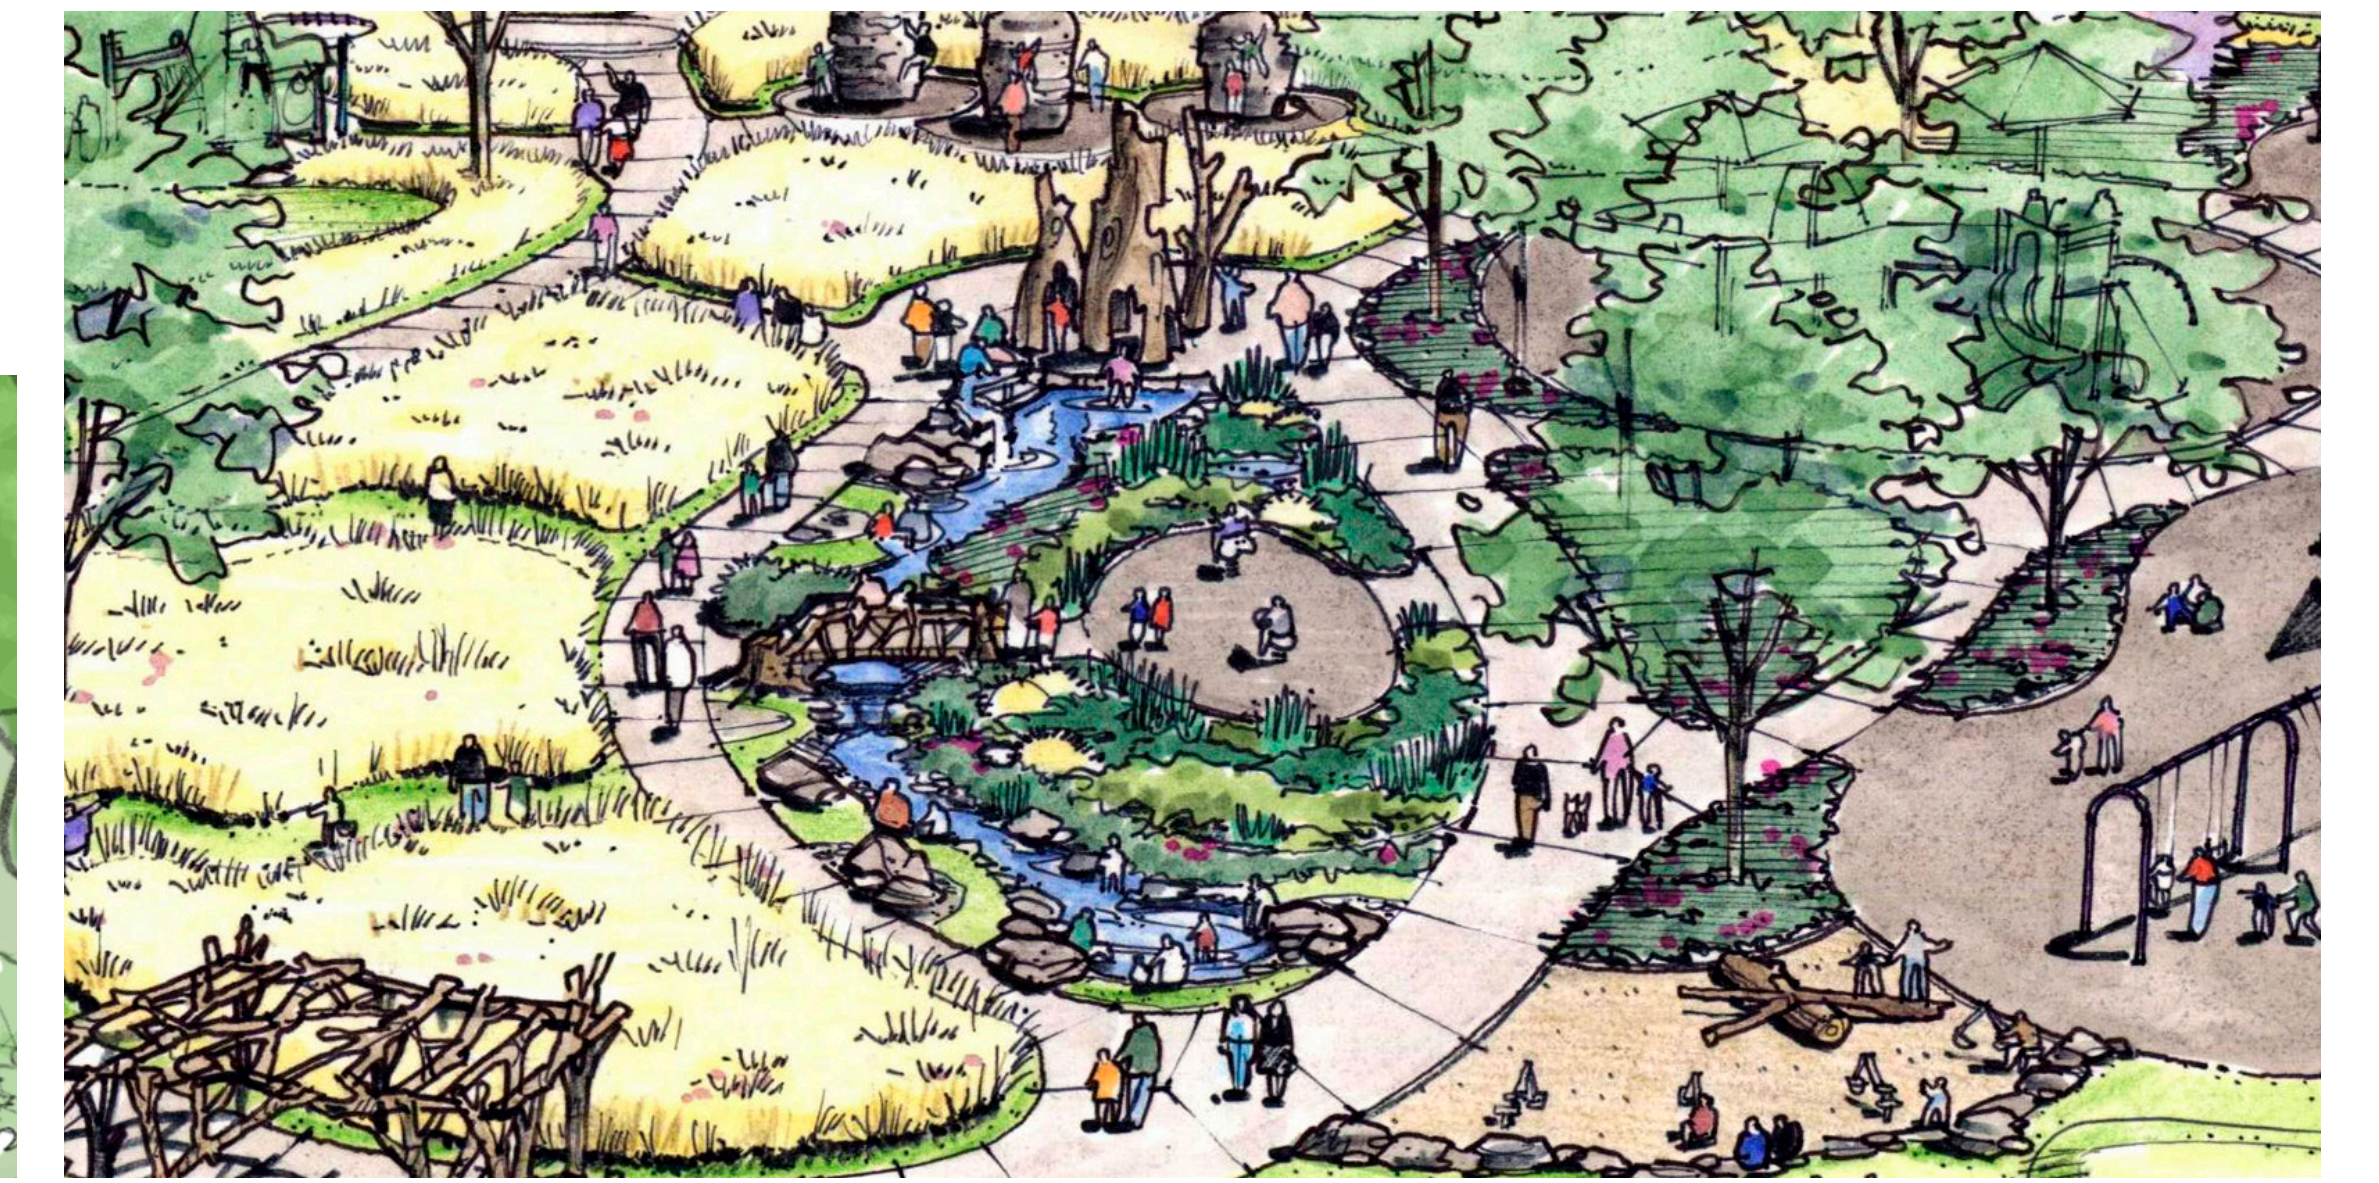

2 HANGOUT SPACES FOR ALL AGES

Utilizing seat walls and other landscape features to create informal gathering spaces

3 WATER PLAY

Introductory water experiences for play and enjoyment. Seasonal spaces for interacting with water in a safe, natural, park environment.

4 COMFORT STATION

Public restrooms, changing rooms, drinking fountains and more. This hub is integrated within a social plaza that includes wayfinding information, varied seating, and bike parking.
